ALL ABOUT NISSAN	28

ON THE SPOT

DISTINCTLY ENERGETIC.

Racier and more dynamic with a lower roofline, steeper windscreen angle, flared wheel arches and a sleek front grill intercepting its swept-back headlamps, the New NOTE's sharpened silhouette has a lot more scope.

IN THE FAST LANE

BRILLIANTLY STYLISH.

Discover the sculpted fluidity of Nissan NOTE. Inspired by the flight of a fast-moving squash ball, that distinctive "squash line" stamped on its side doors signs off its dynamism.

AT HEART

PERFECTLY BALANCED. Form meets function in NOTE's refined interior. A surprisingly spacious, practical layout signed off with premium quality trims, a pure invitation to comfort and driving.

A SEAMLESS CONNECTION DIGITAL DRIVE

NISSANCONNECT. Ease your daily journey and enjoy a seamless urban experience thanks to the new connective services of enhanced connectivity of NOTE's fully embedded navigation, communication and audio entertainment system.

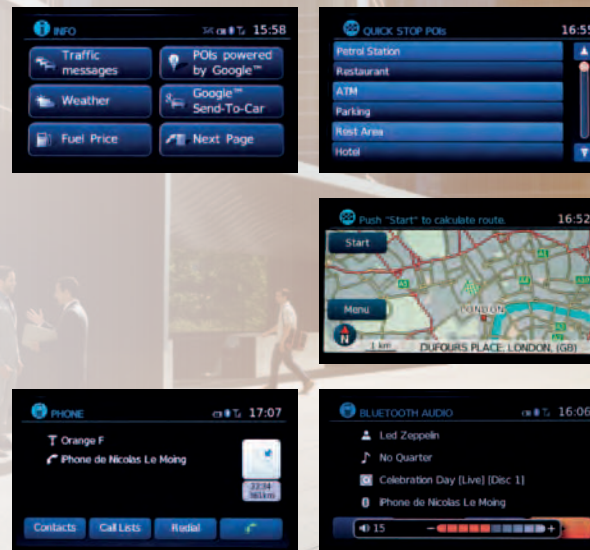

GOOGLE™ SEND TO CAR. Google™ your route at home or at work and send it directly to your NOTE. You'll find it on your 5.8" colour touch screen as soon as you start and connect the car.

STATE-OF-THE-ART SATNAV. Keep a global outlook with high definition 3D maps for 20 European cities, voice recognition in 7 languages and traffic updates in real time.

LOCAL NEWS & UPDATES. Stay connected and Google™ will send you local POIs, weather updates, the nearest fuel prices and flight information throughout your journey.

BLUETOOTH® CONNECTIVITY. Fill NOTE with music by streaming tunes from your mobile phone, iPod or MP3 without even taking it out of your pocket thanks to wireless Bluetooth® connectivity.

USB CONNECTION. Access your entire music library while you're on the go by simply plugging your mobile into the convenient USB socket.

NISSAN AVM

4 CAMERAS. 360° VISION.

DELUXE PARKING AID. Nissan's advanced Around View Monitor delivers a bird's eye view of your car and its surroundings directly to your 5.8" touch screen. It makes reversing and parallel parking so much simpler and stress-free.

BIRD'S EYE VIEW. Using 4 separate cameras, AVM displays an image of your vehicle from above. All you have to do is position your NOTE within the guidelines and enjoy a perfect parking moment.

COMPLETE THE PICTURE. Located under your driver's side mirror, this camera helps round out your virtual 360° birds-eye view whether you're in Drive or Reverse.

CAMERA 4

DON'T SCRATCH YOUR WHEELS. In Drive or Reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the curb.

CAMERA 3

LOOK OUT BELOW. In Reverse, the display helps you see what's directly behind you, while the overhead view helps with shorter objects otherwise hidden below your window.

NISSAN SAFETY SHIELD

LOOKING OUT FOR YOU

ANTICIPATE THE UNEXPECTED. Appearing for the first time in NOTE, Nissan's Safety Shield technology brings you and your passengers outstanding protection. Using vision captured by the rear wide view AVM camera, three advanced safety systems work together to warn you of any potential dangers.

SIMPLY VISIONARY. You can count on your Safety Shield whatever the weather. The rear view camera even includes a wash and blow dry function to keep the lens crystal clear at all times.

BLIND SPOT WARNING. What you can't see, the Blind Spot Warning System can. If there's a vehicle in the blind spot area on either side of NOTE, a discreet light will illuminate the wing mirror to let you know. If you're indicating to change lanes and a vehicle is dangerously close, that same light will start flashing and you'll hear a warning signal too.

LANE DEPARTURE WARNING.

Concentrate...no nodding off! The Lane Departure Warning System will warn you if you start drifting out of lane. It can detect the faintest of road markings and unless you're indicating, it'll quickly remind you to straighten up. Cleverly, it automatically adjusts its sensitivity on rural roads to allow for the different driving style required.

MOVING OBJECT DETECTION. Meet your digital co-pilot. The Moving Object Detection function lets you know if anything is approaching the path of your reversing NOTE. While conventional parking aids warn you of objects in the way, it gives you an audible and visual alert should anything or anyone be moving behind the car, like a small child for example. Very reassuring.

A BROAD SPECTRUM DESIGNER VISION

IN FOCUS. The minute you set your eyes on the dash, it's clear. From those sharp new graphics on the multi-information matrix display to the blue-lit data on the combimeter, information is beautiful in NOTE.

ECO-WATCH. The combimeter delivers all your driving data in high definition whatever the weather or time of day and includes two new ecometers that measure throttle efficiency and fuel economy in real time.

I-TOUCH. Controlling Nissan NOTE is effortless thanks to its judicious steering wheel commands and the ingenious i-Key. Open the door, start the engine and take off - all at the touch of a button.

RELAX & ENJOY. Slide the rear seats back to create more legroom and bask in the light of the glassroof: Nissan NOTE is a destination in itself.

PURE POWER

MAXIMUM PLEASURE. With CO₂ emissions as low as 95 g/km, NOTE is light on the environment as well as your wallet. Its economic engine and class leading technology generate excitement while minimising costs.

DIESEL	OUTPUT	TORQUE	CO ₂ EMISSION
1.5 dCi	90 PS	200 Nm @1,750 RPM	95 g/km
PETROL	OUTPUT	TORQUE	CO ₂ EMISSION
1.2	80 PS	110 Nm @4,000 RPM	109 g/km
1.2 DIG-S MT	98 PS	147 Nm @4,400 RPM	99 g/km
1.2 DIG-S CVT	98 PS	147 Nm @4,400 RPM	119 g/km

DIG-S ENGINE. Offering the eco performance of a Diesel engine without the price tag, NOTE's Pure Drive 1.2 L 98 PS supercharged petrol engine with manual transmission incorporates innovative technologies that reduce the amount of power lost through heat, pumping and friction losses, improving fuel consumption through optimized energy management.

ECONOMICAL ENGINES and class leading technology designed to generate excitement whilst minimising costs. Lightweight & clean cut. With economical engines and class leading technology designed to generate pleasure of driving whilst minimizing costs. NOTE produces low CO₂ emissions (from 95 g/km). NOTE has an impact on both the environment and your wallet when you go to the gas station.

ECO METER. NOTE's crystal-clear display features two new eco indicators, an eco-pedal dial that rates throttle impact and an eco-drive indicator that evaluates efficiency, all in high-definition colour. Check your eco-score after each trip, it's illuminating.

ECO MODE BUTTON. Instantly transform your combimeter into a real guardian of consumption (and therefore CO₂ emissions) with this little button.

START/ STOP SYSTEM FOR ALL. Standard on all models, your Start/Stop ignition system reduces pollution and your consumptions in city traffic. The engine automatically turns off when your NOTE is at a standstill (in traffic jams for example) to save on energy and emissions and then smoothly restarts as soon as you disengage the clutch (MT) or release the break (CVT).

ENGINE VIEW. Its compact, lightweight 1.2 L DIG-S 98 PS engine with super-charged technology achieves up to 4.3 L/km (combined cycle) and produces 99 g/km (figures based on manual transmission).

SECURITY MEASURES

RELAX. It's difficult to go wrong with new Nissan NOTE, but 6 airbags as well as ABS, ESP/TCS are standard on all models just to be extra sure.

TPMS. The Tyre Pressure Monitoring System warns you if your tyres are low in pressure. Keeping them at the right level is not just safer, it keeps your fuel consumption down too.

6 AIRBAGS. Front, side and curtain airbags offer maximum protection to all passengers at all times.

ABS. If you ever have to push down hard on the brakes, the anti-lock brake system limits wheel lock up to help you maintain control and stability.

ESP/TCS. The 9th generation Bosch Electronic Stability Program controls brake pressure to individual wheels and reduces engine torque to maximise

traction and help stabilise the vehicle's direction if tyre adhesion limits are accidently exceeded.

FLEXIBLE IDEAS

ANYTHING GOES. Bikes, bags and any other bulky goods: they're all welcome in NOTE. The seats fold down in four different ways and the karakuri board is very versatile.

KARAKURI BOARD*

Light enough to lift with one hand, the Karakuri board allows you to create different luggage compartments quickly and easily. It's even got a waterproof side so you can keep muddy kit separate too. Place the Karakuri board in the upper position to create a secure space below. Split it in two to create a small compartment behind the rear seats and a taller one at the tailgate. Put both parts on the trunk floor to create one big space or. Clever isn't it.

FOLDING SEATS. Make more room. At the flick of a switch you can fold the seats down to create space of various shapes and size. The rear seats split 60/40 and with the front passenger seat fully forward, you can pile in items up to 1.7 m long.

*KARAKURI is part of Family pack NOT STANDARD .

- 1. Front and rear door handle finishers, Chrome
- 2. Mirror caps, Chrome
- 3. Body side mouldings
- 4. 16" diamond cut Metallic Grey alloy wheels
